

## List of abbreviations found in documents of the "Digital Package" and their explanation

<b>abbreviation</b>	<b>explanation</b>
AoI	area of interest (of analysing a satellite image)
ArcInfo or ARC/INFO	Geographic Information System produced by ESRI (US)
ASTER	Advanced Spaceborne Thermal Emission and Reflection Radiometer
CAP	Common Agriculture Policy
CAPI	Computer Assisted Photo-Interpretation
CBD	Biodiversity Convention (UN)
CIR	colour infrared
CLC	CORINE Land Cover
CLMS	Copernicus Land Monitoring Service
CORINE	Coordination of Information on the Environment
CZ	Coastal zones (CLMS product)
DBTA	DataBase Technical Acceptance (report)
DEM	Digital Elevation Model
DIAS	Data and Information Access Services (Copernicus)
DLT	dominant leaf type
EAGLE	Eionet Action Group on Land monitoring in Europe (EEA)
EC	European Commission
EEA	European Environment Agency
EEA39	39 members and cooperating countries of EEA
EIA	Environmental Impact Assessment
Eionet	European Environment Information and Observation Network (EEA)
ENI	European Neighbourhood Initiative (EC project)
	EPSG Geodetic Parameter Dataset: a public registry of spatial reference systems (created by European Petroleum Survey Group (EPSG)).
EPSG	
ESA	European Space Agency
ETC/ULS	European Topic Centre on Urban, Land and Soil System (EEA)
	Enhanced Thematic Mapper (sensor on board of Landsat-7 satellite)
ETM	
EUNIS	European Nature Information System (EEA)
FFH	Fauna flora habitat directive (Natura2000)
GADM	Global Administrative Data Base
	Global Digital Elevation Model (the latest (2019) version was produced by
GDEM	ASTER satellite)
GEOSS	Global Earth Observation System of Systems
GIS	Geographic Information System
HR	high resolution (e.g. satellite image)
HRL	High Resolution Layers (CLMS products)
HWP	Harvested Wood Products (LULUCF term)
IACS	Integrated Agriculture Control System (EU)
IRS	Indian Remote Sensing (satellites)
JRC	Joint Research Centre (EU)
LAEA	Lambert Azimuthal Equal Area projection
LCF	Land Cover Flows (EEA; specific land cover change processes)
LCLU (or LC/LU)	land cover and land use
LEAC	Land and Ecosystem Accounts (EEA)
LoCo	local components (CLMS products)

LPIS	Land parcel identification system (EU)
LULUCF	Land Use, Land Use Change and Forestry (UN Climate Change Convention)
MAES	mapping and assessment of ecosystems and their services (EU)
MENR	Ministry of Ecology and Natural Resources (Azerbaijan)
MENR	Ministry of Environment Protection and Natural Resources (Ukraine)
MEPA	Ministry of Environmental Protection and Agriculture (Georgia)
MMU	minimum mapping unit (area resolution of a map)
MMW	minimum mapping width (linear resolution of a map)
MoE	Ministry of Environment
N2K	Natura 2000 (CLMS product covering Natura 2000 sites in Europe)
NFP	National Focal Point (EEA)
NIR	near infrared (part of the electromagnetic spectrum)
NT	National Team
NTT	National Technical Team
OSM	Open Street Map (used in producing some CLMS products)
QC	quality control
RZ	Riparian Zones (CLMS product)
SAR	Synthetic-Aperture Radar (a remote sensing device)
SDG	Sustainable Development Goals (EC, Eurostat)
SEA	Strategic environmental assessment
SEIS	Shared Environmental Information System (EEA)
SoER	State of the Environment Report (EEA)
SPOT	Satellite Pour l'Observation de la Terre (Series of French Earth-observation satellites)
SRTM	Shuttle Radar Topographic Mission
SWF	Small Woody Features (CLMS product)
SWIR	short wave infrared (part of the electromagnetic spectrum)
TCD	tree cover density
TM	Thematic Mapper (sensor on board of Landsat satellites)
UA	Urban Atlas (CLMS product covering major cities of Europe)
UNCCD	United Nations Convention to Combat Desertification
VHR	very high resolution (e.g. satellite image)
VIS	visible light (part of the electromagnetic spectrum)
WFD	Water Framework Directive (EU)
WMS	Web Map Service
WU	working unit
