# Outline

# EC Streamlining Environmental Reporting

Source: EC 2017

# Next – EEA support to action plan MRR\*

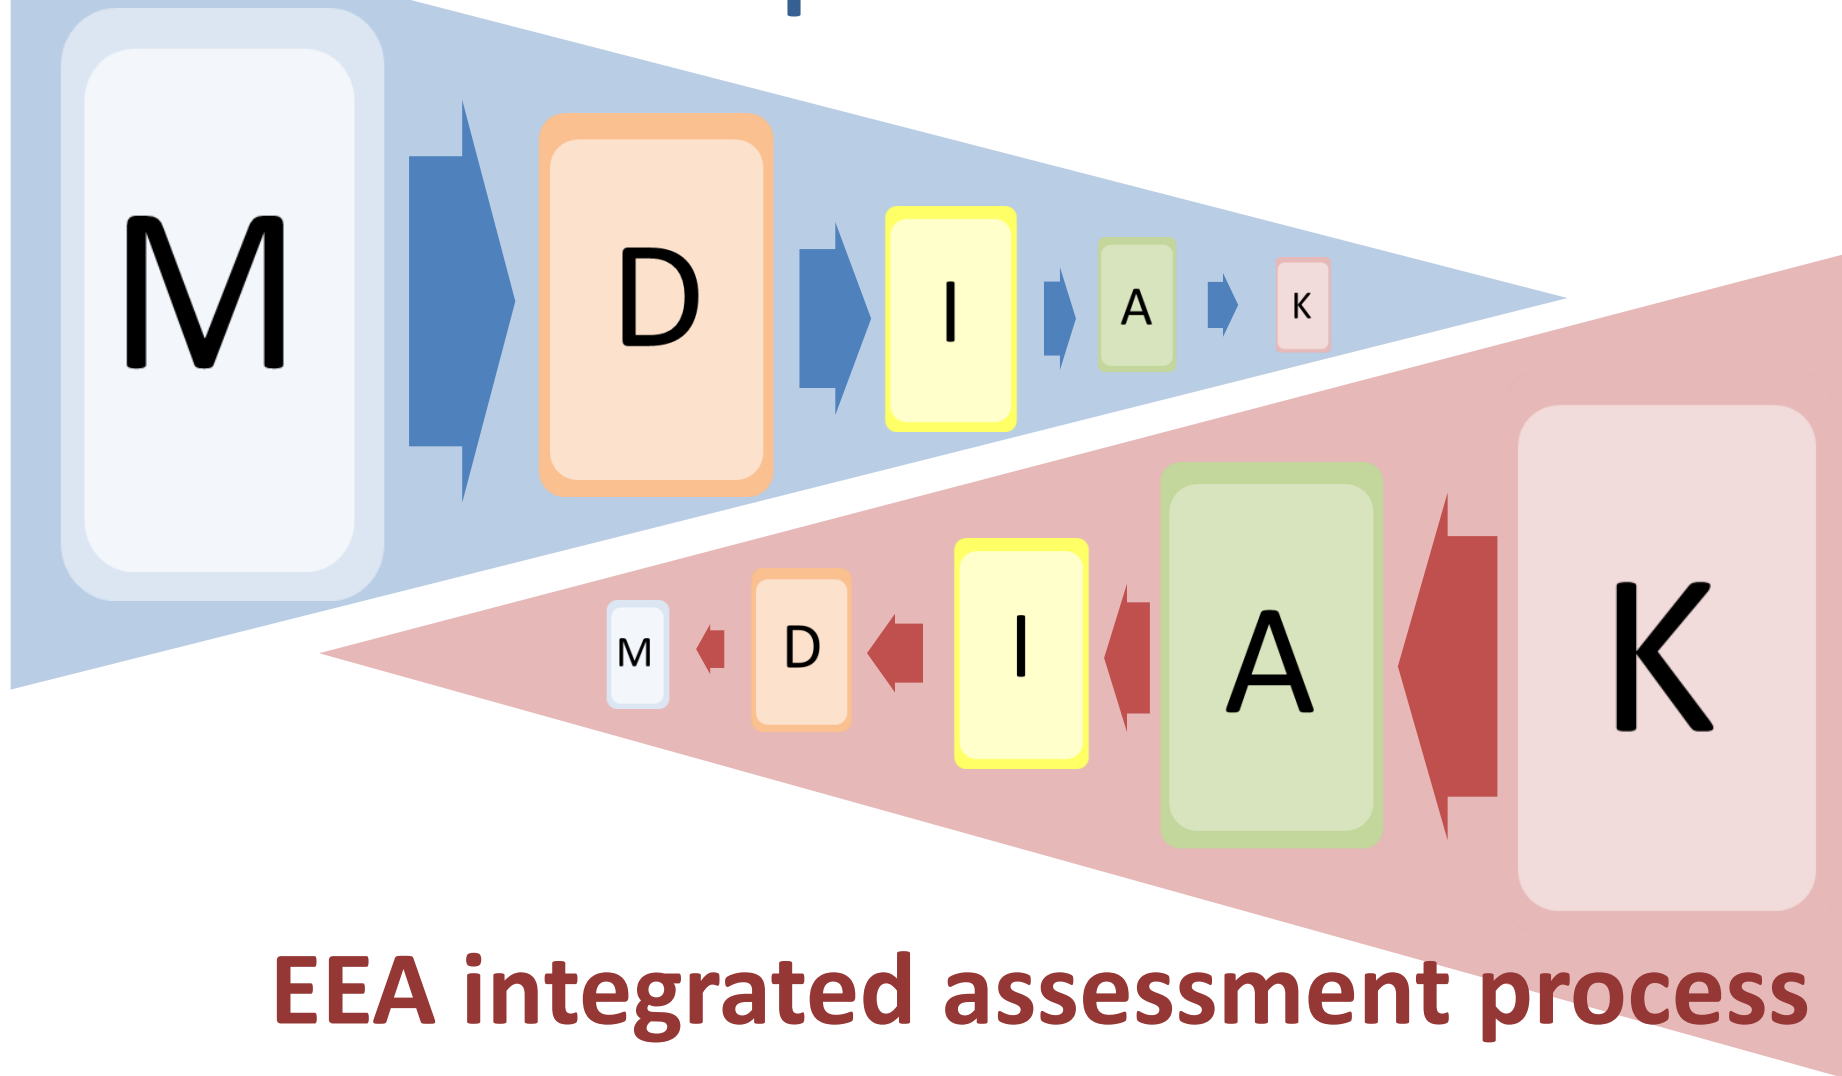

Action	Potential EEA/Eionet involvement
1 Amend legislation	-
2 Change reporting obligations	Support through DG ENV rolling work programme
3 Modernise e-Reporting	Reportnet 2.0 / 3.0 project
4 Develop and test tools for harvesting	Share of National and European experiences
5 Guidance for information systems	Support steering DG ENV project
6 Promote full implementation INSPIRE	Through INSPIRE Monitoring and Implementation Group
7 Use of Copernicus data and services	Increasing use in EEA/Eionet products and services
8 Promote citizen science data	Support on guidelines and pilot
9 Cooperate with other domains	Link to EKC data centres and information systems
10 Wider international streamlining	Trilateral UNECE, UNEP, EEA

\* EC 2107 - Monitoring and Reporting Refit - Action Plan Streamlining environmental reporting
