Ms. Elena Orolva NFP NBS

Ms. Maria Tarigradean NA

SESSION 2

National impacts and deliverables of the ENI SEIS II East project

Republic of Moldova

ER1. Improving implementation of regional/international commitments related to environmental reporting in line with EU/EEA best practices

- EEA technical assistance for harmonizing data with international standards and the **Water Framework Directive**;
- Support to respond to reporting on the conservation status of species and habitats of European importance to the **Bern Convention**/reporting on the conservation status of species and habitats under **Resolution 8(2012)**;
- Support of Moldova's activities towards UNECE Joint Task Force on Environmental Indicators and the UNECE WGEMA;

ER2. Improved capacities in the national administrations to manage and use environmental data, statistics and information to support decision-making in line with EU/EEA best practices;

Water:

- *Hands-on training for national experts; (5-7 June, 2018, Chisinau)*

Biodiversity:

- *Participation at regional Workshops on reporting under Resolution N. 8(2012) of the Bern Convention; (Copenhagen, 17-18 April 2018/(Paris, 8-9 November 2018)*

Air:

- *Participation at regional workshop on Air Quality monitoring & reporting (19-21 September 2018, Copenhagen);*

ER2. Improved capacities in the national administrations to manage and use environmental data, statistics and information to support decision-making in line with EU/EEA best practices;

Capacity building on CLC methodology: *Pilot on extending CORINE Land Cover (CLC) methodology to capital area;*

- *A 3-days long course is planned within the last week of November (26-30 Nov), Chisinau*

Cooperation:

- enhanced cooperation between the national providers and users of data and information through conducted events;

ER3. Preparation of regular State of the Environment reports and indicator-based assessments in line with EU/EEA best practices.

- *Participation at regional EEAcademy Summer School on Integrated Environmental Assessment for contributors to the state of environment report (28-30 August, 2018).*

Communication and visibility

- *Participation at regional workshop on effective communication (27-29 June 2018 Copenhagen);*
- *Support in elaborating the communication and visibility action plan;*
- *Regular dialogue with Eionet and synergy activities – national environmental related news/announcement published on ENI SEIS II East project portal.*

Availability and accessibility of information in accordance with principles of SEIS

Actualized information products

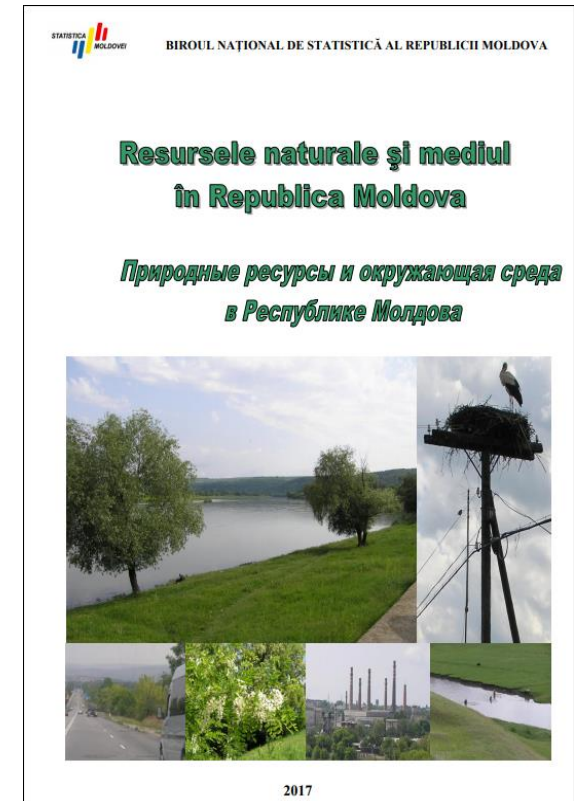

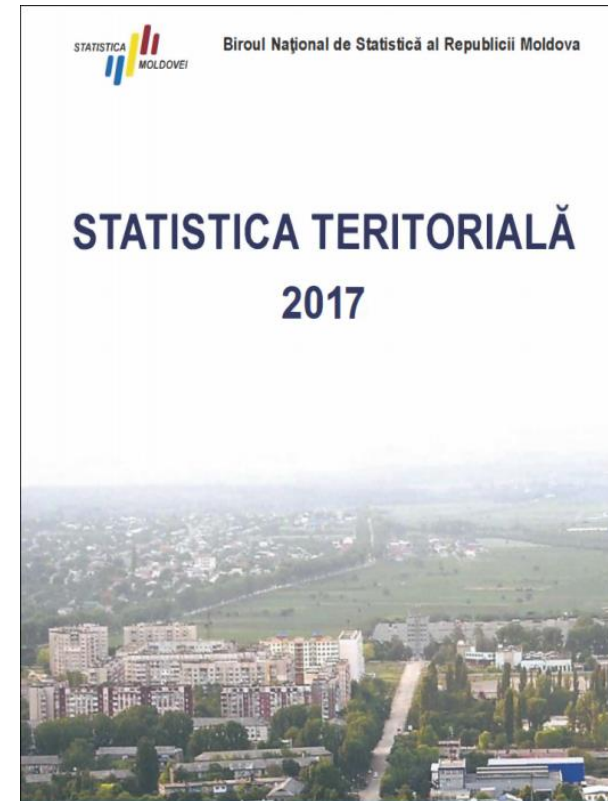

The application was developed in collaboration with [Data Visualisation Centre](#) of United Kingdom's Office for National Statistics.

¹⁰ Availability and accessibility of information in accordance with principles of SEIS

Publications

Elaboration of environment economic accounts (synergy with other activities)

- In synergy with the cooperation project with Sweden Statistics Office, NBS began elaboration of the environmental account of emissions in atmospheric air in accordance with Methodological guide for calculations "System of Environmental-Economic Accounting" – Central Framework. In 2018 - performing experimental calculations of emissions for 2014 – 2016.
- After approval of methodology of calculations this subject will be included in the annual Program of statistical works for their further permanent implementation.

Sustainability and connectivity

- Promotion of the project objectives in synergy with other national projects and with the strengthening of interdepartmental cooperation;
- Activity on improving the system of indicators, expanding the volume and methods of information disseminating;
- Conducting of pilot projects aimed at improving information systems and improving data flows;
- Elaboration of environmental accounts;
- Training of personnel (trainings, study visits, seminars, etc.);
- Expert support.

Sustainability and connectivity

- Stronger focus on infrastructure/technologies;
- Use of previous templates/way to extract information;
- Ensure/facilitate transition to national Environment Agency once it is functional (expected by the end of December 2018)
