Collection and Dissemination of Environmental Information

Policy

Mechanisms

- Rule of Access to Environmental Information Draft Government Decree
- Interagency Coordination Council for Environmental Information Management and Monitoring
- Facilitate disseminating UNECE environmental indicators
- Support development of unified environmental information systems

- Official web page of EIEC eiec.gov.ge
- Environmental Information and Knowledge Management System eims.eiec.gov.ge
- **❖ Air Quality Portal** − air.gov.ge
- Public discussions/consultations
- Media

Processing Modeling Reporting Analyzing and editing Access to Information Access to Information Access to Information

Environmental Information incorporated into 18 thematic direction

Green Assistant

Organizations

Environmental Information and Knowledge Management System

Climate Change

Biodiversity

Desertification

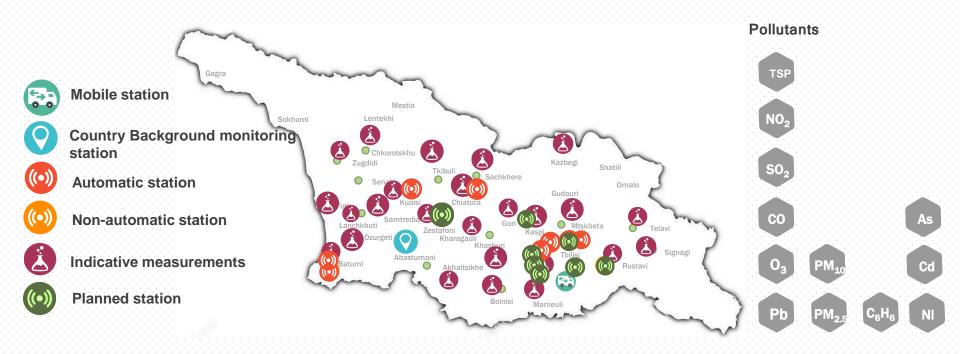

- Easy access to various environmental information
- Exchange of environmental information between stakeholders
- Facilitation of implementation of international obligations
- Improved efficiency of environmental decision-making and policy-making

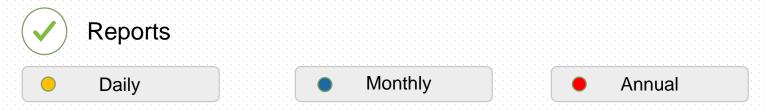

Assessment of Ambient Air Quality

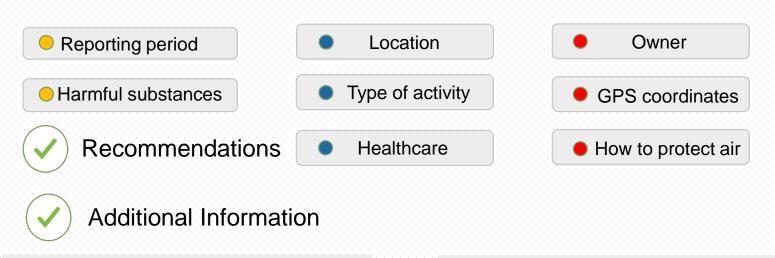

Air Quality Portal

Ensures readily available up-to-date information on ambient air quality in user friendly way

- > Data on emissions from different sectors by years
- ➤ Map of emissions of harmful substances in ambient air from stationary sources where the information is accessible according to different characteristics:

- Definition of Air Quality Index
- Description of pollutants

- Description of monitoring network
- Legislation on ambient air protection

FLUIDS

Web-based Forest Information and Decision Support (FLUIDS) System

- Data management tool
- Store, organize and integrate large amounts of forest and land-use related data from multiple sources
- Ability to perform required analysis

Environmental Information

Land Recourses

Forest Recourses and its Protection

Natural Hazards

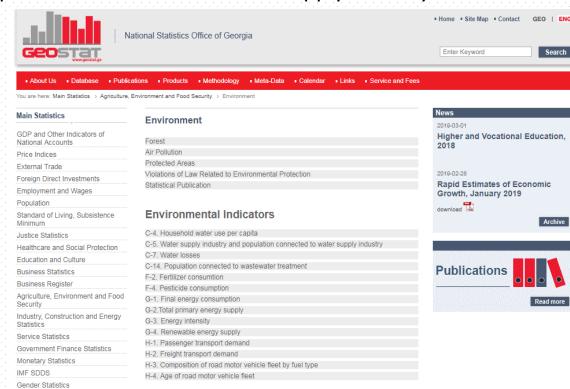

Environmental Information

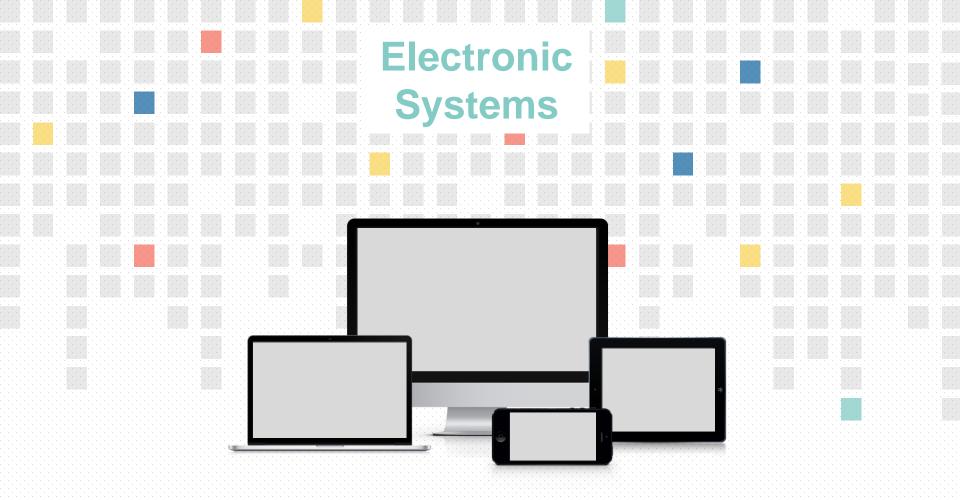

UNECE Environmental Indicators

- C-4 Household water use per capita
- C-5 Water supply industry and population connected to water supply industry
- C-7 water losses
- C-14 Population connected to wastewater treatment
- F-2 Fertilizer consumption
- F-4 Pesticide consumption
- ❖ G-1 Final energy consumption
- G-2 Total primary energy consumption
- **❖**G-3 Energy intensity
- ❖ G-4 Renewable energy supply
- H-1 Passenger transport demand
- H-2 Freight transport demand
- H-3 Consumption of road motor vehicle fleet by fuel type
- ❖ H-4 Age of road motor vehicle fleet
