

# Small-Scale Funding Agreement “ SSFA ”

- Activities
- Objectives

# SSFA Activity 1:

Development and selection of environmental indicators and preparation for the State of Environment Report .

# Main Objectives

- **Prepare a baseline report on existing indicators and related data, potential indicators, data flows and quality assurance elements related to their generation and reporting, information & reporting system, governance & regulatory aspects.**
- **Prepare lists of indicators with their specifications.**
- **Review QA/QC of existing datasets.**
- **Prepare a Draft Chapter on H2020 assessment.**

# **Expected Results:**

- 1. Baseline report on potential indicators needed to produce an indicator based SoER.**
- 2. Assessment report of existing indicators ( QA/QC , availability ).**
- 3. Final list of a National core set of environmental indicators with specifications based on the baseline report and reviewing of available indicators and datasets.**
- 4. Draft Chapter on H2020 assessment**

# Linkage With International bodies and projects

- **Harmonization of National Sets of Environmental Indicators with Regional & International Indicators will enhance the knowledge and information sharing.**
- **A core set of environmental indicators will contribute to H2020 review and monitoring objectives .**
- **Indicator-based Assessments and Data Sharing will contribute to H2020 project ( Results 1 & 2) .**
- **Reporting obligations ( SDGs, LAS , UNEP/MAP MEDPOL ,..... )**

- 
- **R1: The H2020 indicator set is stabilized, refined and complemented in order to be able to serve multiple purposes, as well as to ensure that the progress of achieving H2020 objectives is properly measured, while also contributing to assessing compliance with commitments under the Barcelona Convention.**
  - **R2: The in-country processes for organizing sharing of data sets underlying the H2020 indicators are stabilized.**
