

Egypt progress towards SEIS implementation

*Mohamed Eissawy, Ministry of Environment
Assistant Minister for monitoring, reporting, and evaluation*

This project is funded by the European Union

European Environment Agency

key achievements at national level?

Gap Analysis

12 / 32 Indicators: Available
20 / 32 Indicators: Not Available
27 / 32 Indicators: Not covered in the
SOER 2017.

Thematic and Indicator-based assessment

Thematic Assessment:
3 Main thematic areas
5 Sub thematic areas
Indicator Assessment:
2 Thematic areas

Draft National H2020 Assessment Water Chapter

What changes on the ground inline with the project useful for the future?

- ❖ **Municipal waste master plans for Egyptian governorates.**
- ❖ **Pollutants inventory project.**
- ❖ **New waste real time information system.**
- ❖ **New monitoring program for Marine litter.**

What conditions needed to capitalise on those achievements?

- ❖ **Including all available data in future state of environment reports and other relevant reports.**
- ❖ **Take fast steps towards the establishment and upgrading of the waste information system.**
- ❖ **Maintain cooperation and interaction between environmental information bodies to achieve full SEIS guidelines implementation.**

Thank you for your attention!
