

Israel progress towards SEIS implementation

*Orna Matzner, Israel Ministry of Environmental Protection
Senior Manager, Chief Scientist Office*

This project is funded by the European Union

European Environment Agency

Key Achievements

MSW and Hazardous Waste:

- Promotion and Improvement of data reporting, collection and analyzing systems
- Setting of new standards for data quality, harmonization of definitions and development of performance indicators

Changes Useful for the Future

- Harmonization, coordination and improved communication of definitions and waste codes at the national and the EU level
- Improved basis for future projects and policy at the national and regional level
- Highlighting data gaps and future needs

Sustainability of Achievements

- Maintaining enhanced coordination and cooperation of the involved stakeholders
- Continuity of data collection and reporting in order to update the database and the analysis of the state of the environment
- Broaden the scope of the reviewed themes in order to better fit for the changing needs of the region

Thank you for your attention!
