Jordan progress towards SEIS implementation

Ali Mashni, Ministry of Environment Jordan
Head of State of the Environment and Environmental Indicators Section

European Environment Agency

What are the 2 key achievements at national level?

- Completed the data analysis for the thematic assesment for SEIS indicatros

- Eliminating duplicates in Environmental indicators

- Mapping of the availabe Data and data systems at national level

What changes on the ground as a result of the project useful for the future?

- Easier communication with partner minsirteri for data sharing

- A clear view of the data avaialbility and Identify the Data gaps

- Indicators and thematic assesment skills

- Use the SEIS indicators in the next SOE Report

What conditions needed to capitalise on those achievements?

- Have automatic Data management and sharing between stakeholders

- Direct the efforts for coming projects to fill the identified data gaps

- To Enhance the infrastructure for monitoring programs to fill the Data gaps

Thank you for your attention!
