# Changes on the ground:

---

- **Increased cooperation between stakeholders**
- **Better understanding of needed national environmental indicators**
- **Mutual agreements between stakeholders on responsibilities toward environmental data and indicators production.**

This project is funded by the European Union.

European Environment Agency

# Challenges and themes that needs to focus on:

---

- **Waste water data partially unavailable and National WW indicators to be developed.**
- **Waste data needs regular update and automation –portal, platform.**
- **There is a need to develop standards to management process of the SW like: collection, treatment, disposal, leachate concentration,....**
- **Industrial pollution and emissions faces problems concerning availability – capacity building needed in this concern.**

This project is funded by the European Union.
