Selection of a first set of indicators in 2016

- **1st Workshop on MSSD 2016-2015 Monitoring March 30-31 2016 Saint-Laurent du Var France.**
- **Selection of a first set of 34 priority indicators from different Indicators sets including SDG indicators**
- **Completed with 15 Easy-to-update indicators already selected for the MSSD 2005**
- **Assessment of the first set of indicators (Mid-July – October)**
- **2nd Workshop on MSSD 2016-2025 Monitoring, Barcelona October 17, jointly with SCP Indicators and Blue Economy Indicators**

Assessment of the first set of indicators

The indicators have been classified in 3 major categories:

Status of the Indicators	Nb of Indicators
Factsheets available	24
Factsheet in progress	15
Indicators with some issues	9

- The indicators of the 3rd category need to be
 1. Better defined
 2. Replaced
 3. Cancelled
 4. Populated with the cooperation of the national institutions/experts

Ongoing and planned activities in 2017

- **Finalise the ongoing factsheets**
- **Assess some new indicators and elaborate the related factsheets**
- **Online consultation of the core set of indicators and factsheets (Focal Points) then presentation/discussions at the MCSD meeting (July 2017)**
- **Update the assessment of the core set according the comments from MSCD SC, MCSD members and Focal Points (reduce the number of indicators)**
- **Revise the core set of indicators and factsheets**
- **Include all the factsheets in the Sustainability dashboard to be adopted by the COP 20 by the end of 2017**

Outputs : Compendium of indicators factsheets

Draft version is available on the Sustainability dashboard web site

(need to be reviewed with MSCD SC comments)

Outputs : Sustainability dashboard

PLAN BLEU

Plan Bleu's mission is to provide the Contracting Parties with assessments of the state of the environment and development of the Mediterranean and a solid basis of environmental and sustainable development data, statistics, and indicators to support their action and decision making process.

Conclusion and next steps

- **Data gaps are still important and cooperation of the countries institutions is needed to populate some indicators. (SEIS could help for reducing these data gaps)**
- **The core set of indicators need to be validated**
- **Finalise the Mediterranean Sustainability dashboard website**
- **Include Blue Economy and SDG14 indicators in the Mediterranean Sustainability dashboard website**
